About me

Have been living and working in Thailand for the last 2 and a half years as a Divemaster and Instructor and **currently seeking for a full time or freelance position for the low season.**

In addition, I am punctual, hard worker, a good team player and very motivated. Funny and always ready to give the best diving experiences to customers. I have shop and compressor management skills and willing to get equipment maintenance & repair experience in the future.

I consider myself an easy-going person and someone that likes to make other's work easy. Also, I can work under pressure as I worked for IDC Resorts with a large volume of costumers.

To conclude, I have a very strong feeling for the environment and help marine conservation programs as much as I can, such as turtle care & release, reef checks, Biorock, U/W & Land clean-ups, mooring lines and coral nursery, water analysis...

Thanks for your time and consideration,

Best Regards,

Mr Instructor wanting a job
