Referee: Course Director: Steve Prior

Other Skills and Achievements

- Computer literate – GCSE IT passed (includes word processing, spread sheets, data base programmes, web design) and regular use of Word, Excel.
- Good communication skills
- Amateur Website Designer
- Good team worker – demonstrated on work experience placements
- International Car driving licence

Hobbies and Interests

I am very interested in scuba diving and the life under the seas and want to make my career in this. I am also keen on other active sports. I have sailed Optimists and Lasers on Lake Victoria at the local sailing club. I have learned the guitar and drums and enjoy listening to music. I am interested in learning another languages. I have also been on stage with Phuket Amateur Dramatics.

Personal Statement

I have lived in Australia for much of my life: firstly in the South East where we lived in a village situation. After 6 years back in the UK we returned to Queensland and have lived there ever since. Most of my education has been in an International School and I took Cambridge International Examination Board exams. I have friends with lots of different cultural backgrounds and I can get along with everyone. This has made me a very adaptable person – able to fit with different people and cultures easily.

I am a very 'hands on' person. My strength is in both learning and teaching in active practical situations, though I am also able to handle relevant theory without any problems.

I am sociable and enjoy working with others. I like the outdoors and learning new things. I would be willing to take extra training and want to learn another language when I get the opportunity.

I am a 23 year old new OWSI with 10 specialties who has spent the last 6 months in Florida training with a Platinum Course Director and Master Instructor. During this time I have gained experience in Compressor operations, Dive Guiding, and doing Discover Scuba programmes.

I am now really keen to teach, to put into practice all that I have learnt and am sure that my age will bring maturity as well as enthusiasm to your business. I am English speaking with some basic Spanish . I have travelled over and lived extensively in Europe, am very self sufficient and used to dealing with different nationalities.

I understand fully the nature of the diving business and bring fun as well as selling courses to your clients would be attributes that I can bring.
